

# Isn't This The Way

C                    D                    G  
Isn't this the way that you wanted it?  
                         C                    D                    G  
Isn't this the groove you said would be movin' mountains?  
C                    D                    G  
Isn't this the beggar in the street?  
                         B7  
Isn't this the one that you wanted completely?

C                    D                    G  
I was younger, full of grave  
                         C                    D                    G  
But your new career let you lie right to my face  
C                    D                    G  
You're the lowest form of disgrace and  
B7  
You came along just to ruin my day!

CHORUS

VERSE (with hammond solo)

C                    D                    G  
With the poisoned, ugly pen  
                         C                    D                    G  
You advanced yourself and your business acumen  
C                    D                    G  
Mum and dad are proud to say that  
B7  
they've got a son who writes for his pay!

CHORUS (linger on B7 at the end)

GUITAR SOLO

CHORUS

ENDING: C C D G
